

# Have your say on our revised proposals for Calderdale Energy Park

We are currently seeking your views as part of our statutory consultation. This consultation will run from Wednesday 08 April until 11:59pm on Wednesday 10 June 2026.

Please let us know your views by reading our consultation material and completing a feedback form.

Following the statutory consultation, we will carefully review all comments and insights provided by local communities, stakeholders and statutory bodies.

This feedback will help us:

- Refine the proposals, including to address concerns raised.
- Complete the Environmental Statement (ES).
- Submit a well-informed Development Consent Order (DCO) application.

We recommend that you read our consultation brochure for information to help you provide us with your feedback on our proposals. You may wish to refer to the Preliminary Environmental Information Report (PEIR) or Non-Technical Summary for more detailed information.

A Consultation Report will be submitted as part of the DCO application, summarising the feedback received and detailing how it influenced the final project design.

**The deadline for responses is 11:59pm on Wednesday 10 June 2026.** You can respond to this consultation by, completing this feedback form online at ([www.calderdaleenergypark.co.uk](http://www.calderdaleenergypark.co.uk)) or alternatively:

- Attending a consultation event and completing a printed feedback form which can be handed into the team in-person or taken away and sent to us via freepost (using **Freepost CALDERDALE ENERGY PARK**)
- Emailing into [info@calderdaleenergypark.co.uk](mailto:info@calderdaleenergypark.co.uk)
- Writing to us at **Freepost CALDERDALE ENERGY PARK (no stamp is required)**

## Privacy Statement

Cavendish Consulting Limited ("Cavendish") is working on behalf of Calderdale Wind Farm Limited (CWFL) to undertake public consultation on the proposals for Calderdale Energy Park. By submitting your feedback, you are agreeing that Cavendish (the Processor) can hold and process your personal data in relation to this project on behalf of CWFL (the Controller). Your Personal Data will only be used for the purpose for which we collect it, which may include the following:

- Consulting on Calderdale Energy Park and analysing your feedback.
- Reporting to the Secretary of State, Planning Inspectorate or local authorities on the consultation. This may involve passing your personal data to those parties, and in some cases, we are required to publish the data as part of a consenting process.
- Communicating with you about Calderdale Energy Park, including updates on the proposals and to conduct negotiations.
- Surveying land that may be affected by Calderdale Energy Park.
- Carrying out enquiries into land ownership and occupation.

All personal information we receive will be handled in accordance with our privacy policy, which can be found at [calderdaleenergypark.co.uk/privacy-policy](http://calderdaleenergypark.co.uk/privacy-policy).

## About you

Please provide your name and contact details below in order to authenticate this feedback form and so that we can keep you updated. If you are not comfortable providing us with your full contact details or do not wish to be kept up to date, please include your postcode as a minimum.

Title (Miss/Mrs/Ms/Mr/Other):

## More about you

### 1. How would you describe your interest in Calderdale Energy Park?

- |  |  |
|--|--|
| <input type="checkbox"/> Local resident                            | <input type="checkbox"/> Local interest group member (if so, please specify) |
| <input type="checkbox"/> Local representative (Councillor/MP etc.) | <input type="checkbox"/> Statutory organisation (if so, please specify)      |
| <input type="checkbox"/> Landowner                                 | <input type="checkbox"/> Other (please specify)                              |
| <input type="checkbox"/> Local business owner                      | <input type="text"/>   |
| <input type="checkbox"/> Regular visitor                           |  |

## The Project

### 2. Based on the updated information we have presented as part of our statutory consultation, how supportive are you of our current proposals for Calderdale Energy Park?

- Strongly support    Support    Neutral    Oppose    Strongly opposed    Don't know

#### 2B. Please explain why

Comments:

### 3. What elements of Calderdale Energy Park are most important to you? (Please select all that apply)

- |   |  |
|---|--|
| <input type="checkbox"/> Landscape and visual   | <input type="checkbox"/> Energy needs, carbon reduction and climate change |
| <input type="checkbox"/> Biodiversity (habitats, protected species, birds, etc.)                              | <input type="checkbox"/> Construction impacts                              |
| <input type="checkbox"/> Noise and shadow flicker   | <input type="checkbox"/> Peat  |
| <input type="checkbox"/> Traffic and access   | <input type="checkbox"/> Tourism and socioeconomics                        |
| <input type="checkbox"/> Land use   | <input type="checkbox"/> Recreation use or Public Rights of Way            |
| <input type="checkbox"/> Water and flood risk   | <input type="checkbox"/> Other (please specify)                            |
| <input type="checkbox"/> Cultural Heritage (Listed Buildings, Scheduled Monuments, historic landscapes, etc.) | <input type="text"/>   |

**In 2025, we held a non-statutory consultation on proposals that included 41 turbines, a Battery Energy Storage System (BESS), the removal of solar panels, and changes to access routes and grid connections. Since then, we have reviewed consultation feedback alongside ongoing technical and environmental work, leading to further refinements, including a reduction to 34 turbines and the removal of the BESS.**

### 4. To what extent do you think the recent design changes have improved the project?

- Substantially improved    Somewhat improved    Made no improvements  
 Somewhat worsened the project    Substantially worsened the project    Not sure

#### 4B. Please explain why

Comments:

5. On page 9 of the consultation brochure we present to you our updated Turbine Layout. Do you have any comments on the proposed turbine layout, including specific locations where you feel turbines should be moved, avoided or reconsidered, as well as any areas of the site you think are particularly appropriate or more suitable for turbine placement?

Comments:

## Traffic, Access and Transport

6. How satisfied are you with the proposed two-route access strategy, with heavier construction traffic using the Western Access (A6068) and a limited number of HGVs using the Eastern Access (A6033). Lighter vehicles and construction staff will use both access points.

Very satisfied  Satisfied  Neutral  Unsatisfied  Very unsatisfied

6B. Please explain why

Comments:

7. Do you have any local knowledge we should factor into the design of the Western Access or Eastern Access routes - such as pinch points, sensitive heritage areas (e.g., vaccary walls), popular walking/cycling/horse riding spots, or car park pressures (e.g. near the Atom Panopticon)? Please include road names, landmarks or times of day where issues are most likely.

Comments:

## Preliminary Environmental Information Report (PEIR)

As part of the ongoing Environmental Impact Assessment (EIA) we have been undertaking a number of surveys across several environmental topic areas.

8. Do you have any comments on the methodology and/or approach taken to the preliminary assessments in the PEIR? Where possible, please specify the environmental topic area(s) you are commenting on.

Comments:

9. We have presented to you the findings of our environmental and technical work and assessments, including our proposed measures for mitigation and enhancement where these are currently known. Do you have any comments on the information that we have presented? Please make your comments in relation to each of the topics below where applicable.

**Biodiversity**

Comments:

**Ornithology**

Comments:

**Hydrology and Hydrogeology, Peat and Soils**

Comments:

**Traffic, Transport and Access**

Comments:

**Recreation and Public Rights of Way**

Comments:

**Carbon and Climate Change**

Comments:

**Landscape and Visual**

Comments:

**Noise and Vibration**

Comments:

**Air Quality**

Comments:

**Socio-economics and Tourism**

Comments:

**Aviation and Radar**

Comments:

**Shadow Flicker**

Comments:

**Major Accidents and Disasters**

Comments:

**Contaminated Land and Agricultural Land Classification**

Comments:

## Cable Route

We have shared with you our current plans for connecting Calderdale Energy Park into the National Grid. This includes the proposed Point of Connection at Bradford West Substation and the cable route is proposed to be located within the Bradford West Cable Corridor.

The draft route has been developed to minimise impacts on local communities, the environment and key infrastructure, and will continue to be refined through detailed design work and feedback from stakeholders, local authorities, statutory bodies and the community.

**10. Are there any parts of the Bradford West Cable Corridor that you are concerned about (e.g. specific roads, fields, woodland, access points, or environmental features)?**

Comments:

**11. Is there anything you think we should consider as we refine the route (such as local knowledge, environmental sensitivities, access, or construction impacts)?**

Comments:

## Community benefits

**12. During the non-statutory consultation in April 2025, we asked for ideas on how the community benefit fund could support local groups and projects. Based on the suggestions gathered, please select the options you would support. There is also space to add any additional suggestions.**

- Improvements to community infrastructure (e.g, schools, community centres, communal spaces)
- Support for local groups, community services, and community led initiatives
- Community education programmes (e.g, environment, energy, or local issues)
- Environmental initiatives (e.g, environmental manager role, peat restoration, nature conservation, ecological enhancements)
- Support for local energy efficiency retrofits (e.g, insulation, low carbon measures)
- Flood prevention and water management projects
- Improvements to community landscape and access (e.g, rights of way, local roads, wider access infrastructure)

Comments:

**Calderdale Energy Park is set to deliver significant economic and employment benefits for Calderdale and the wider region. These include a major local investment that will drive economic growth and job creation, partnerships with local education providers to develop the clean-energy workforce of the future, and new opportunities for regional suppliers and contractors.**

**13. Would you be interested in the employment, skills and training initiatives, as well as local supply chain opportunities that will arise from the project?**

- Yes    No    Unsure

**13B. Please explain why**

Comments:

**14. Do you have any further comments on our proposals for Calderdale Energy Park?**

Comments:

**15. How did you find out about this consultation?**

- Social media     Word of mouth     Media (newspaper, radio, TV)     Project newsletter  
 Through a local group/organisation     Other (please specify)

**Data Protection**

We process all Personal Data in accordance with the UK General Data Protection Regulation, the EU General Data Protection Regulation 2016/679 (together the "GDPR") and the Data Protection Act 2018. Your Personal Data will not be transferred outside the UK or European Economic Area (the EU member states plus Norway, Iceland and Liechtenstein). To see our full Privacy Notice and find out how to exercise your data subject rights, please visit [cavendishconsulting.com/dp](http://cavendishconsulting.com/dp) or contact us by phone on 01962 893 893, or email at [dataprotection@cavendishconsulting.com](mailto:dataprotection@cavendishconsulting.com).
