

**Preliminary Environmental
Information Report (PEIR)
Documentation**

**Errata
Report**

06.05.26

Introduction

This list of errata has been published to address and identify corrections, drafting errors and inconsistencies across the Preliminary Environmental Information Report (PEIR) and associated documents published for statutory consultation on the updated proposed design for Calderdale Energy Park on 08 April 2026.

For the avoidance of doubt, none of the corrections constitute a material change to the Proposed Development or the conclusions presented within the PEIR and wider statutory consultation materials. No consultation on the corrections is required beyond the appropriate publication of this Errata and updated documentation.

Errata Explanation Table

Table 1: Errata Explanation Table

Publication date	Document Title / Figure Reference	Nature of Erratum	Explanation	Revised document reference / Figure Reference
06.05.26	Appendix 13-2	Clarification of Methodology	Text added to Introduction to clarify the measurement of distance between asset groups and turbines.	Appendix 13-2: Initial Settings Report (Updated)
06.05.26	Appendix 13-2	Error in referencing of designated heritage assets to asset groups and figure sheets.	Groups 18, 20, 21a and 21c were indicated on the wrong figures. Text has been updated to reference correct figures.	Appendix 13-2: Initial Settings Report (Updated)
06.05.26	Appendix 13-2 Figures A13.2.1 – A13.2.2	Obscured designated assets in Group 18.	Group 18 asset locations were obscured by the legend and turbine locations were omitted from mapping. Figure has been updated to provide better clarity.	Appendix 13-2: Initial Settings Report (Updated)
24.04.26	Volume 1, Chapter 4: The Proposed Development	Error identified in Table 4-1	Table 4-1 includes turbine coordinates from a previous iteration of a potential design for the Proposed Development, prior to Design Chill. The turbine coordinates were updated in December 2025 following changes made to address the results of Phase 2 peat probing.	Volume 1, Chapter 4: The Proposed Development (updated)

PEIR Documentation | Errata Report

Publication date	Document Title / Figure Reference	Nature of Erratum	Explanation	Revised document reference / Figure Reference
			<p>These changes are relevant to a small number of proposed turbine locations that were micro-sited away from areas of deeper peat (particularly T28 but also T22, T27, T30 and T34).</p> <p>Table 4-1 has been updated to show potential turbine locations as per the latest design for the Proposed Development used for PEIR and Statutory Consultation.</p>	
24.04.26	Appendix 10-4: Preliminary Peat Landslide Hazard Risk Assessment (PPLHRA)	Error in figure labelling	Figure 10.4.14 incorrectly labelled as 10.4.10.	<p>Appendix 10-4: Preliminary Peat Landslide Hazard Risk Assessment (updated)</p> <p>Figure 10.4.14</p>
		Incorrect turbine locations	<p>Figure labelled 10.4.10 includes potential turbine locations and numbers from a previous iteration of a potential design for the Proposed Development, prior to Design Chill.</p> <p>The figure has been updated to show potential turbine locations as per the latest design for the Proposed Development used for</p>	<p>Appendix 10-4: Preliminary Peat Landslide Hazard Risk Assessment (updated)</p> <p>Figure 10.4.14</p>
